

Invoice

July-August, 2006

Date	Time in	Time out	Activities	Number of hours
07/06	9:30 AM	5:30 PM	Tabulate Aging data Preparation of activated carbon samples for mesopore modification Planning next steps	8
07/07	8:30 AM	4:30PM	Review literature Sample preparation for TGA and DSC studies Evaluation of gold catalyst in Eclipse Preparation of activated carbon samples for mesopore modification -continued	8
07/11	9: 30 AM	5:30 PM	Record keeping Review literature	8
07/12	9:00 AM	5:00 PM	Preparation of Copper / zinc oxide Patent document Preparation of alumina / ceria support	8
07/14	9:00 AM	5:00 PM	Preparation and evaluation of alumina / ceria support Preparation of Copper / zinc oxide Patent document House keeping Review literature	8
07/18	9:00 AM	5:00 PM	Preparation of Copper / zinc oxide Patent document Record keeping	8
07/20	9:15 AM	4:15 PM	Record keeping Review literature	7
07/21	12:15 PM	6:15 PM	Planning next steps Preparation of Disclosure document on Mesopore modification by ceria	6
07/25	9:00 AM	5:00 PM	Synthesis of gold catalyst by direct anion exchange	8
07/26	10:00 AM	6:00 PM	Evaluation of gold catalyst in clean gas, in Eclipse whole smoke and in gas phase Record keeping	8
07/27	9:00 AM	5:00 PM	Synthesis of gold catalyst by direct anion exchange Evaluation of gold catalyst	8

08/01	9:45 AM	5:45 PM	Preparation of Disclosure document on Mesopore modification by ceria Evaluation of aging samples Evaluation of gold catalyst Review literature	8
08/03	9:30 AM	5:30 PM	Chemical disposal and clean up chemical inventory Regeneration of spent- gold catalyst	8
08/04	9:00 AM	5:00 PM	Review literature Review copper oxide –zinc oxide RDM	8
08/08	9:30 AM	5:30 PM	Review copper oxide –zinc oxide RDM	8
08/10	9:30 AM	5:30 PM	Review literature Preparation of gold-ceria-alumina catalyst Evaluation of catalyst	8
08/11	9:15 AM	5:15 PM	Evaluation of gold catalyst Preparation of samples for TGA / DSC	8
08/17	9:00 AM	5:00 PM	Evaluation of gold catalyst in Eclipse Review literature	8
08/18	9:30 AM	5:30 PM	Preparation of gold-ceria-alumina catalyst	8
08/23	8:30 AM	4:30 PM	Preparation of palladium chloride-ceria catalyst by impregnation Evaluation of aging study sample Review literature Preparation of alumina substrate	8
08/24	9:15 AM	5:15 PM	Preparation of alumina substrate Preparation of 15 g batch of gold-alumina catalyst Preparation of iron oxide –gold catalyst by deposition precipitation	6
08/25	8:30 AM	4:30 PM	Calcination of iron oxide and alumina catalysts Evaluation of catalysts	8
08/28	10:00AM	4:00 PM	Preparation of samples for DSC / TGA and ICP samples Evaluation of catalyst samples after aging Preparation of ceria –gold catalyst by deposition precipitation process	6
08/29	9:30 AM	4:00 PM	Preparation of samples for DSC / TGA samples Evaluation of catalyst samples after aging Review literature Record keeping	6.5
Total Number of Hours				185.5
