Total Cigarette Cost/M	\$ 5.9073	\$ 6.2077	\$ (0.3004)

Materials:

Variable labor & Fringe:

Labor and Fringe for prototype only reflects cost through Primary and Tobacco Processing.

GOE:

GOE for prototype only reflects cost through Primary and Tobacco Processing.

NOTE: Caution should be exercised in recognizing the impact associated with Labor and OH as any estimated savings/costs will only be realized to the extent that the planned product change has a real impact on how the Company does business. (ie., Capital/labor additions/reductions.)

Advise of any questions.
